Experience

Kelly

FEB 2025

Freelance Project

Created Kelly App which followed a custom made Design System, Illustrations, and Branding Guidelines.

Collaborated across teams and made solutions by understanding company needs, target audience and feedback.

HCL Tech

JUN - AUG 2024

UI UX Design Intern . Platforms Teams

Collaborated with the Platform Team to design and maintain the HCLTech Portal, creating wireframes and high-fidelity, responsive prototypes to visualize user flows and support development across desktop and mobile devices.

Selected Work

01

Less

AI-POWERED SUPERMARKET OPERATION SaaS

Conducted UX research and competitive analysis of Indian supermarket operations, covering inventory, maintenance, receiving, cold-chain logistics and vendor management.

Defined product strategy, information architecture and end-to-end user flows for an AI-powered operations SaaS platform.

02

Prologis

SaaS PROJECT

Designed an end-to-end, map-based logistics real-estate platform that helps e-commerce, 3PL, manufacturing, retail, and multiple filter layers evaluate properties beyond basic size, price, and availability.

03

InsureTech

RESEARCH . UX . PROTOTYPING

Designed the review interface for an AI that extracts insurance product configurations, turning complex machine output into value insights. End-to-end product and service design.

CAPABILITIES
